2022 MSBA Student School Board Member Scholarship

Part III: ONE-PAGE ESSAY

Please answer the following questions on **ONE** typed, single-sided sheet of paper:

“What experience and knowledge have you gained from your time as a student school board member?”

“What have you contributed to help your board or your school as a student school board member?”

Part IV: Obtain TWO LETTERS OF RECOMMENDATION

ONE from an elected school board member and ONE from the superintendent or a school district employee. Both recommendations should reflect on **your service with the school board and what you contributed to improve your schools.**

Please give your board member and superintendent (or school district employee) the following writing prompts for your recommendations.

With this recommendation:

- Write about how the student helped give insight to the board on an issue and give an example on how that insight helped the board reach a better decision.
- Write about what the student has done to help the board or the school district to promote student achievement.
- Did the student participate in a specific project to help the board -- such as a superintendent search, a referenda committee, or any other committee? How was their input valuable?
- Please do not simply list all the activities the student has been involved in. The student’s involvement is already listed in a separate part of this application. We want to hear how the student has helped the board and the school district.
- Please send your recommendation back to the student before the March 14 deadline so that the application can be assembled and submitted on time.
